

**Product Information**

**Applications:** Cove, Linear, Accent, Indirect Lighting  
**Volts:** 24V (12V Available Upon Request)  
**Lamps:** Wedge 4.5W, 5W or 7W (Included)  
**Lamp Life:** See Lamp Specifications  
**Socket:** Wedge Base

**Specifier:** \_\_\_\_\_

**Project:** \_\_\_\_\_

**Type:** \_\_\_\_\_

**Date:** \_\_\_\_\_

**Application and Construction**

Designed to utilize upright wedge base lamps, WedgeLite 7000 Series provides many desirable features. Of primary importance the option of the long lamp life of incandescent lamps for a warm color. For a whiter color, xenon lamps are excellent. WedgeLite sockets are mounted in an upright position which makes the system easier for future lamp replacement, thus reducing maintenance costs.

WedgeLite has the option of being mounted with easy to install mounting clips, u-channel, or v-reflector. WedgeLite can be easily field cut for an easy and fast installation not requiring exact field dimensions.

WedgeLite is excellent to illuminate areas for cove or indirect lighting. The flexible wire is excellent for round or snake type coves..

Suggested spacing is 3"-4" for scallop free cove lighting.

**Lamp Specifications**

Catalog #	Description	Volts	Watts	Lamp Life Hrs.	Max. Lamps Per Run	4" O/C	6" O/C	12" O/C	24" O/C
