

**Product Information**

- Applications:** Carpeted Steps
- Volts:** 12V
- Lamps:** Incandescent or LEDs
- Lamp Life:** See Lamp Specifications
- Socket:** Custom
- Extrusion:** Black Vinyl Material

**Indoor Applications**

- Amusement Industries**  
Night Clubs, Movie Theatres
- Recreation Industries**  
Hotels, Restaurants, Casinos
- Architectural Industries**  
Interior Decor, Shopping Centers
- Construction Industries**

**Lamp Specifications**

**Specifier:** \_\_\_\_\_

**Series / SLT /Lens/Spacing/Lamp**

**Product Code:** STL6200/ \*TLS / \*\*C / / /

**Project:** \_\_\_\_\_

**Type:** \_\_\_\_\_

**Date:** \_\_\_\_\_

\* Note: TLS stands for Two Light Source which means there is a light on top of the step and bottom.

\*\*Note: C stands for Clear Lens

**Application and Construction**

Designed to utilize Light Emitting Diodes (LEDs) or incandescent lamps, StepLite 6200 provides many desirable features. Of primary importance the long life of the LEDs makes it an excellent product to reduce maintenance in the future. LEDs also consume 1/3 less wattage than incandescent bulbs.

StepLite 6200 has a top light to illuminate the edge when you are walking down the steps. There is also a bottom light to light the tread area when you are walking up the steps.

StepLite is excellent to illuminate steps and pathways in movie theatres, school auditoriums, or any area that requires a step light. Suggested spacing is 8" on center

**Electrical**

StepLite is supplied with a 120V (primary side)/12V (secondary side) transformer. Specify other primary side voltage if different than 120V. StepLite runs at 12V. Terminal Breaker Box is used for secondary protection.

**Material:** Black Vinyl Material for Carpeted Steps.
