

MANUFACTURER	PRODUCT NAME	MODEL NUMBER	MAX LOAD	LINK
Lutron	Diva CL Dimmer			
		DVCL-153P	150 Watts	Click here to see manufacturer's spec sheet
Lutron	Diva 250W CL Dimmer			
		DVCL-253P	250 Watts	Click here to see manufacturer's spec sheet

For additional dimmers compatibility, contact your dimmer supplier and give them the following dimming protocol:

DIMMING PROTOCOL (FORWARD PHASE DIMMING)

Technical Requirements For Control Equipment (Forward Phase Dimming)

- Electrical Characteristics - Inductive
- Special Requirements - Symmetric cycles

Symmetric Forward Phase-Control

(VDC ≤ 2), smooth turn off (positive and negative periods are equal for safe operation)

- Ensure dimmer is appropriate for LED load and does not exceed LED load max watts
- Dimmer must be suitable for LED load.

Note: Always confirm minimum and maximum loads
