- 1.** Measure area where LLED8300-L will be installed.

RECOMMENDATION: Use chalk line to ensure a straight installation.

- 2.** Mark location where mounting clips will be installed.

TIP: Quantity of mounting clips = quantity of fixture +1.

Use a mounting clip at the joint between two fixtures.

- 3.** Lay mounting clips and pre-drill using proper drill bit for surface and screw size.

RECOMMENDATION: 8/32 X 1" screw

- 4.** Screw mounting clips to surface, then snap fixture into mounting clips. Ensure fixture is securely mounted in place. For wet location, continue to step 5.

- 5.** Apply silicone at both ends of each run to seal fixture (for wet location fixtures only).
